

1. What message would you give to a resident of East Grinstead (and the surrounding area) who cycles and wants to see more people cycling as to why they should vote for you on this issue?

2. What do you see as the main barriers to people cycling in East Grinstead and local district and how will you set about removing them?

3. The new West Sussex Walking & Cycling Strategy sets a target to double the levels of cycling, by 2025. Currently this figure is at 3.1% in West Sussex dropping to 1.9% in East Grinstead. With the new higher quality protected cycle tracks in central London showing a huge rise in use, do you support the creation of protected lanes on main roads in East Grinstead?

4. Towns across West Sussex suffer from common problems of traffic congestion, poor air quality and health problems due to inactivity/obesity. Do you support cycling infrastructure as a way to have a positive effect on all these issues?

5. Do you have any other general cycling-related comments or points?
